DENTAL INSURANCE

Your insurance can be a helpful supplement towards your dental investment depending on your plan's benefit options. Rest assured that we will use all the necessary resources to ensure that you receive the maximum benefit under your specific plan.

Patients who have dental insurance should be aware that we are happy to submit your insurance claims as a courtesy to your carrier with the information you supply to us for compliance with your insurance benefits. The estimated portion your insurance company may pay is just an "estimate" and we cannot guarantee what, if any, your insurance covers towards your dental treatment. Any portion not covered by dental insurance is the responsibility of the patient.

FINANCIAL OPTIONS

Forms of Payment:

In order to facilitate access to the very best healthcare possible, you may choose from any of the following payment option: Cash, Visa, MasterCard, American Express, Discover, Debit Cards or Care Credit.

Prepay Courtesy: (For fees over \$2000)

A prepayment courtesy of 5% reduction will be extended if the patient obligation is paid in full, by any of the above forms of payment, at the first treatment visit.

Two Payments: (For fees over \$1000)

Total patient obligation may be divided as follows: 50% due at first treatment visit, with the remaining balance due at second appointment.

For any fees under \$1000, the full amount is due the day treatment begins.

Care Credit:

Applying for Care Credit is Quick and Easy. Patients can apply by phone or online in only minutes. Our office offers a 3, 6 or 12-month no interest payment plan; a minimum monthly payment is required.
