FINANCIAL POLICY

Charges for professional services are due at the time dental treatment is provided. We make every effort possible to provide you with preventive, corrective, and cosmetic dental treatment that fits your timetable and does not compromise in the quality of care or materials prescribed by the doctor.

Professional services that are rendered to you are fully your financial responsibility regardless of insurance coverage. Our office will bill your insurance as a “courtesy” and if the insurance company has not paid within 90 days of the charge, the full balance will be due immediately. We cannot guarantee what, if any, your insurance will pay towards your dental treatment.

Our patient coordinator will offer you appointment options for your dental needs. Some treatment may require several visits and pre-planning. Once these visits are scheduled, at least 24 hours notice is required in the event you need to change an appointment in order to avoid a rescheduling fee. This gives us the opportunity to offer your appointment time to a patient with an emergency need. Please ask us about our priority call list for appointment availability.
